

CTE Welding Certification Training

Course #2701.8162
September 22-24, 2010
Region 9 ESC
9:00 - 4:00

Presenter: Mr. Rich Depue, Consultant
Audience: Agriculture Teachers

The Texas Agriculture Welding Certification Workshop is a three-day training program consisting of two days of classroom training followed by one day of welding lab exercises. This three-day workshop will provide Agriculture welding teachers with hands-on training, certification requirements, welder certification documentation and welding procedures specifications, as well as an American Welding Society Code Welder Certification. This workshop will also supply teachers with the resources required for implementation of a welding certification or certificate program.

To receive credit participants must attend all three days.

There is a fee of \$210.00 dollars for participants that are not part of the Carl Perkins Coop.
